

# NORTH AMERICA TRAFFIC™

THE LEADER IN TRAFFIC CONTROL SYSTEMS

**The SAFE choice for Traffic Control**

## **Battery Powered LED Illumination**

North America Traffic understands visibility is an important safety requirement in work zones. We have developed a Battery Powered LED Illumination which integrates seamlessly with our PTL 2.4x Portable Traffic Signal.

# NORTH AMERICA TRAFFIC™

THE LEADER IN TRAFFIC CONTROL SYSTEMS

## Battery Powered LED Illumination

### LED Flood Lamp:

- 2,300 lumens (1,150 lumens per lamp)
- 10 watts per lamp (20 watts total)
- Two lamps installed on the mast arm
- Power supplied by Flooded Lead Acid (included) or Sealed Lead Acid Batteries (optional)
- Flooded Batteries Autonomy: 232 Amp Hours
- Sealed Lead Acid - AGM Batteries Autonomy: 224 Amp Hours
- Self contained batteries are stored in an isolated compartment with theft-resistant design
- Photocell (light sensor) automatically controls on/off at dusk and dawn
- Install once, leave in place (can transport with system in place)
- Power supply is separate from the traffic control operation - the flood lamps power draw will not cause and/or add to a low battery state at the traffic signals
